DEF CON Hackers with Disabilities HDA team

The purpose of the Hackers with Disabilities HDA team is to make the DEF CON experience the best it can be within the scope and ability of the DEF CON staff. All persons with disabilities regardless of the severity, visibility, permanence, or any other factor of their disability are to be treated with dignity and respect as per the DEF CON code of conduct. Under no circumstances will harassment be tolerated. Please report any instances of harassment, abuse or other out of line behavior to the DEF CON info booth, any DEF CON staff in red shirts, or hotel resources you feel most comfortable with.

Each year the HDA team will make available an information kit that is available on line and in a downloadable format containing policies, maps, facility points of contact, and suggestions for attendees with accessibility needs. While we strive to make this complete and comprehensive please understand that with a convention of this size changes can and will be made constantly and the HDA team will do their best to keep attendees.

If you are bringing your own devices or need to arrange rental of a device, please contact your hotel for up-to-date information on their policies and partnerships with local rental agencies.

During the convention there will be lines for registration, badges, and other events. Any attendee with accessibility needs may proceed to the front of any line with a goon
